

S.T.A.C.K. NODE RECALIBRATION RECORD (R/R)

Node: _____ Steward: _____ Date: _____

1. PROTOCOL LEVEL (SEVERITY)		
☐ Level 1: Telemetry Sync (Talking To/ Coaching)	☐ Level 2: System Alert (Formal Warning)	☐ Level 3: Protocol Patch (Formal Write-up)

2. INTERFERENCE LOG (DESCRIPTION OF ISSUE)
Detail the specific behaviors, latency issues, or performance drops identified:

3. CROSS-CLUSTER IMPACT AUDIT (HARM TO OTHER TEAMS)
Does this interference affect other nodes, teams, or external clusters?
☐ Internal Only ☐ Cross-Team Harm (Describe): _____

4. ROOT CAUSE DIAGNOSTIC
Is this a GWC or Values issue?
☐ Gets it ☐ Wants it ☐ Capacity
☐ Core Values Misalignment

5. PREVIOUS TELEMETRY
Have prior Pit Stops addressed this "Noise"?
☐ First Instance
☐ Recurring Pattern

6. REQUIRED ARCHITECTURE PATCH (CORRECTION PLAN)
Specific technical or behavioral fixes required to return to "In-Spec" performance:

7. NODE & STEWARD ACKNOWLEDGEMENT
Signatures confirm that the recalibration parameters have been communicated.
X _____ X _____

“We don’t manage people; we manage the architecture of their success. The leader’s role is to be the redundancy that keeps your team’s growth alive.”
